We want no "Womans Rights" or "petticoat Governm[illegible]"
or any thing that comes under that head, but the
root marrow of original Abolitionism.
We hope you will come as this an important field
for this part of Christian Enterprise.

Truly Yours in the Cause of the Slave
N. W. Smith

If you come you will please call on me or
Capt Alpheus Kimball.

N. W. Smith.

Fitchburg June 12 1839.

Rev A A Phelps

Dear Sir

The friends of the Slave in this place wish to hold a meeting on the coming fourth of July in case a suitable man can be procured to give us an address on the occasion. I have been requested to write you to see if it is possible for you to come and give us an address. We hope you will come if it is possible. We probably shall be able to have a full attendance as we know of nothing doing on that day in this vicinity. Much good may be done here in this cause.

We hope you will write us without delay as there is no time to be lost.

If you can come please write what you think would be the best arrangement for the day. We should probably have a number of gentlemen from abroad, and might have both the day spent in offering and sustaining resolutions, &c and both the day by the address. &c. arrangements will be made until we hear from you. We wish you would send us some pieces to be performed by the choir if you have them at hand. This would bring the different choirs together previous to the occasion —
